

The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to dark navy blue. The shapes are primarily triangles and polygons, creating a modern, layered effect. The text is centered on a white background that is partially framed by these blue shapes.

Symposium V: Nitrosamine Risk Assessment

Part 1 - *in silico* and *in vitro* Approaches

Nitrosamines

- ▶ *N*-Nitrosamines are a class of impurities that are potent genotoxic agents and referred to as “cohort-of-concern” (COC) compounds (ICH M7)

- ▶ *N*-Nitrosamines discovered in several medicinal products, including valsartan, ranitidine, and metformin
- ▶ Health Authorities request *N*-nitrosamine risk assessments for all commercial medicinal products
