

2024 Annual Meeting of the GTA
April 10-12, 2024
John M. Clayton Hall Conference Center
University of Delaware, Newark, DE

Dear colleagues,

The 2024 Genetic Toxicology Association (GTA) will hold its annual meeting April 10-12, 2024 in Newark, Delaware USA. We hope to share the full scientific program with you shortly but you can expect the usual high-quality mixture of workshops, symposia, posters, a sit-down dinner & awards! In the meantime, we are pleased to announce that registration is open.

Keynote Address

Dr. Dan Huh

Department of Bioengineering, University of Pennsylvania

Topic: *Microengineered models of human physiological systems for a variety of biomedical applications*

Scientific Program

Workshop 1

Case studies in NAMs

Workshop 2

Experimental design considerations, and appropriate use of historical negative controls

Symposium I

Genetic toxicity of genome editing

Symposium II

Genetox across sectors - testing strategies, unique perspectives and regulatory challenges

Symposium III

Next-level NAMs: exploring the transition of in vitro genetic toxicology to more complex models

Symposium IV

Nitrosamines: assessment, regulatory perspectives, and case studies

Symposium V

Gentotoxicity risk assessment: best practices for impurities/excipients
